

I Meetings With Known Tobacco Interest

1. Jan. 16-18 -- Conference on "The Air We Breathe," under combined auspices of California School of Medicine and University Extension-Department of Continuing Education in Medicine and Health Sciences, San Francisco. (TIRC support)

2. Feb. 24-25 -- Indiana Academy of General Practice, Ft. Wayne.

Dr. Little on the program.

3. March 24-26 -- Conference on "Cardiovascular Effects of Nicotine and Smoking," New York Academy of Science, New York City. (TIRC support)

4. Tentative for November 1960 -- Symposium on "Tobacco and Disease," proposed to New Academy of Medicine by New York State Academy of Preventive Medicine. This has been postponed at least twice. In its original form it was shaping up as completely anti-tobacco. The first tentative program has undergone many changes and still is unsettled. Symposium to be financed in part by the American Cancer Society and other groups.
